Assistant Deputy Update Gunnar McFadden	Gunnar had handouts that showed agency budget vs agency obligations and personnel budget vs obligations and they are broke out by deputy area. Jay asked about personnel that showed on the invoices that had left the agency. Keith said he just contacted Financial Management and let them know that there needs to be a correction. Gunnar said they are trying to catch the ones that are incorrect before they are sent. Mendy asked about how long it is taking to make changes that they identified in August. Tina said if Gunnar had not stayed on top of it, it would be even worse since they hadn't done most of the work until Gunnar got onto them. Gunnar stated there were not as many changes to be made as there had in the past. Brenda asked about allocation of state dollars – how is being done? Gunnar said CFHS is told how much state dollars they will receive and then he figures out how it used. Mendy asked who actually allocates the money and it comes from the Commissioner's office. The Non-Personnel budget vs obligations is mostly contractual obligations and those they are trying to reduce. Maria asked how much deeper are the cuts going to be? Gunnar said until we get the final invoices in for those contracts that have been discontinued he will not know what it will look like at that time. Keith asked about how they are trying to get additional money from the counties and he sees there will be a problem. Tina said they are in survival mode. Mendy asked about the cash. Gunnar said Mike Romero brought a document to the board and said that is going to be his check and balance. Mendy ask if we hadn't reconciled the accounts at the central office? Gunnar said yes, the state had been, but the problem is at federal monies that haven't been. Tina said that we needed to be prepared to have our agency on the front page of the paper for some time to come. Questions were asked about RIF specifics. IT invoices and payroll invoices have gone, but there might be issues with them. Gunnar meet with immunization staff, Mike Ewald, Leigh Newby, Dr. Bradley and Tina have met and are discussing to work through some solutions.
